DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-15, drawn to an apparatus for creating a multilayered blown film.

Group II, claim(s) 16-28, drawn to a method for creating a multilayered blown film.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Teutsch et al. (USP 5069612) demonstrates that it is old in the art to create a multilayered blown film (Column 1, line 9) while individually controlling the temperatures of multiple single resin dies (Column 4, lines 29-30 and Column 7, lines 33-35) that are adapted to extrude a multilayered blown film from a single die (Figure 1: 144). Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of

Art Unit: 1791

inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
